

# BTX-BLIZZARD WASH1

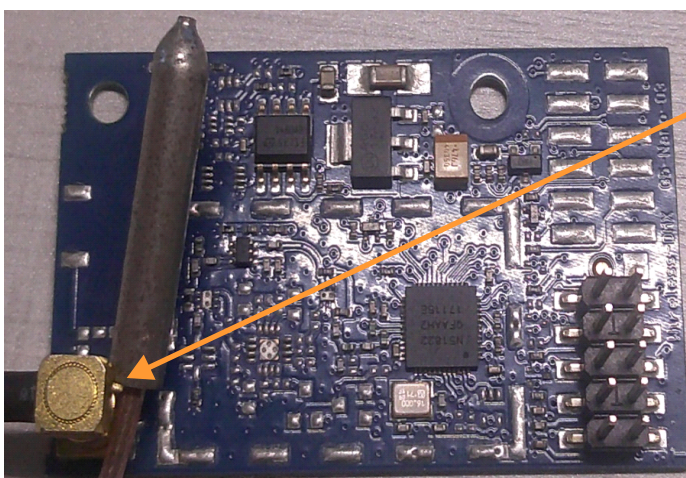

## BRIEF INSTALLATION MANUAL W-DMX MODULE

**1** Remove the bottom plate of the base (8 allen bolts to remove)

**2**

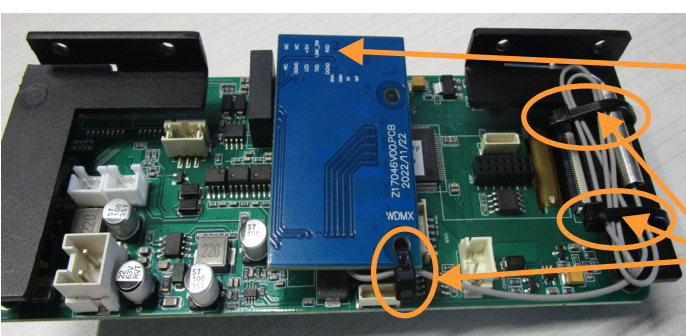

**3**

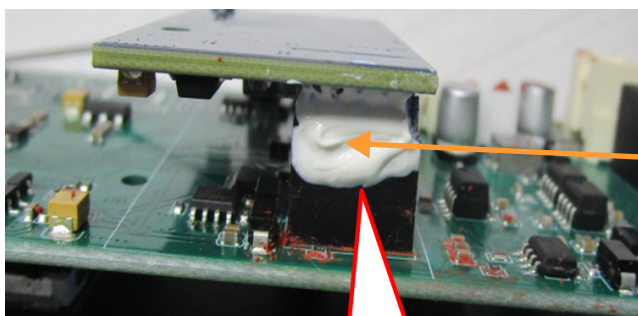

Plug the antenna in the wireless adapter board, see picture

**3**

Position the WDMX module on the PCB (see picture) and insert the male pinheader in the female connector on the PCB.

Use 3 cable ties to secure the module + antenna cable as shown on the picture.

If needed, put some silicon glue on the connector to secure it.

Done! → the WDMX option is ready to be used.
