

OHO-350b

OHO-350w

50W RMS Spherical speaker - 8 Ohms

The OHO-350, thanks to its spherical shape and 360° orientation is absolutely perfect for indoor installations such as home cinemas, or small installations requiring discretion, ergonomoy and high sound quality.

It features both a 3.2" medium loudspeaker and coaxial tweeter providing an incredibly precise and clear sound output.

It can also be combined to a subwoofer to cover a very vast sound spectrum.

Package contents

The package must contain the following articles:

- 2 OHO-350 speakers
- 2 magnetised bases
- 1 accessory kit: 4 fixation screws, 2 screws for safety cables and 4 flexible caps to hide the fixation screws
- 1 pair of gloves to prevent the speakers from getting dirty during the installation

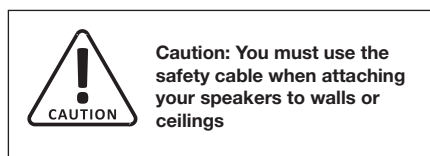

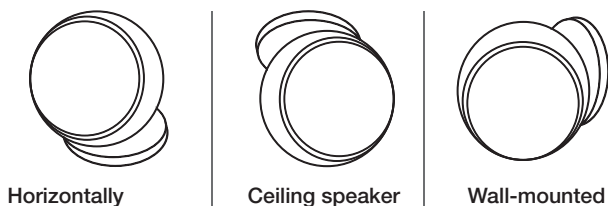

Please contact your retailer immediately if one of these articles were to be missing.

Description

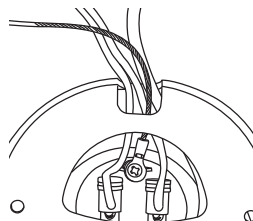

Installation

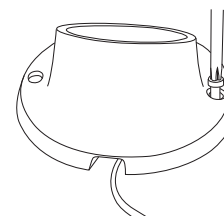

Your OHO-350 speaker can be set in several different ways:

Please make sure to connect your amplifier cable before installing the base.

Then use the supplied screws or screws adapted to your support to attach the base.

Finally, place the speaker onto its base and connect the power supply cord, then use the safety cable to secure your speaker position.
